Definition of Addiction, The Five Addictions, Theories of Addictions; The Brain Reward Cascade, Disease Concept of Addiction, Multi-factorial Addiction components, Toxicology & Laboratory testing.
Instructor: Jay M. Holder, D.C., CAP, CASAP, DACACD

APRIL 14 & 15, 2018
Nutritional Strategies in Addictions, ADD, PTSD, & Depression
Nutrition is vital to brain health and emotional processing. Stress and poor diet aggravate nutrient status, increase need for key factors the body uses to heal nerve tissue, and damaged organs. This class will cover essential nutrients and supplements to complement rehab and recovery clients. We will also look at factors which affect nutrient absorption and requirements. Discussion will include vitamins, minerals, amino acids, herbs and homeopathics.
Instructor: Lynn Lafferty, Pharm.D., MSA, N.D., CNC, CNHP

May 5 & 6, 2018
Process Addictions, Food, Sex, Gambling & Internet: History Of Substances of Abuse
Process Addictions are addictions that do not involve a substance. The focus will be on defining, identifying, and diagnosing these problem behaviors, as well as effective treatment strategies. The seminar will also include the history of substances of abuse, and will focus on how these substances have been used throughout time.
Instructor: William Berry, LMHC, CAP

JUNE 2 & 3, 2018
Co-Occurring Disorders, Adolescents, Trauma and Integrated Treatment
Psychopathology Affective/behavior Disorders, Personality Disorders Organic Brain Disorders, Psychotic Disorders, Anxiety Disorders Treatment Principles, DSM V Guidelines, Assessments, Interacting with schools, organizations and institutions.
Instructor: Linda Wilson, LCSW

JULY 7 & 8, 2018

From field, first responders to SAMSHA licensing, Bio-Psychosocial, Amino Acids, Nutraceuticals, Titration from Suboxone, Naltrexone & other interventions. Detox Placement. Suboxone and The Drug Addiction Treatment Act of 2009 (DATA 2009) requirements for licensing, Naltrexone & other interventions
Instructor: Michael Schaefer, DC, OMD, MPH, DACACD

NOVEMBER 3 & 4, 2018
Dialectical Behavior Therapy Implementing Advanced Strategies of Motivational Interviewing
Dialectical Behavior Therapy (DBT) is a comprehensive cognitive-behavioral treatment originally used for Borderline Personality Disorder (BPD). DBT is especially effective for those with dysregulated behaviors. Research has shown DBT to be effective in reducing suicidal behavior, psychiatric hospitalization, and dropout from treatment, substance abuse, anger and interpersonal difficulties. A collaborative person centered form of guiding to elicit and strengthen motivation for change. An evidence-based practice in the treatment of individuals with substance use disorders.
Instructor: Ali Hall, J.D., MINT

DECEMBER 1 & 2, 2018
New Trends in Drug Treatment Programs, Treatment Models & Development
Treatment History, Med Assisted Treatment, Models & Components, Profile of Patients, Drug Courts, Federal Funding and Grants. Confidentiality, National Strategy, Legal Issues, Assessments & Placement Criteria, Recovery Coaching, Marketing & Program Development.
Instructor: Phillip Diaz, MSW, LLD(H), DACACD
